

## You need

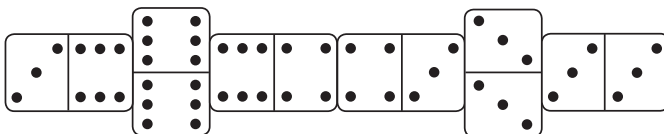

☆ 1 set of dominoes

1. Place dominoes face down. Mix up the dominoes.
2. Each player takes turns to take a domino until all the dominoes are gone.
3. Each player lays out their dominoes in front of them, face up.
4. If you have the double 6 , you go first. Put it on the table.
5. If the next player has a domino with 6 dots on it, place it next to the double 6. This is a train.

6. Take it in turns to match a domino to either end of the train. If a player does not have a match, they say 'pass' and miss a turn.
7. The first player to use all their dominoes is the winner.

All 'doubles' are placed 'across' the train.
